Sweetwater Bakery is now featuring NowKeto[®], the best in clean keto supplements to optimize personal performance, and is part of the Innovation **Collective Startup Incubator in CDA, Idaho.**

What is Keto?

A ketogenic diet is a low carb, moderate protein, and high fat diet which puts the body into a **metabolic state known as ketosis.**

When your body is in a state of ketosis, the liver produces ketones, which become the **main energy source for the body.**

The diet is based around the idea that your body was **designed to run more efficiently as a fat burner** than a sugar burner.
